Product Images

Description

Features

- Easy to adjust, providing optimum conditions for a good ergonomic working position
- Manual (pneumatic) seat height adjustment using a handle
- Adjustable seat, backrest & armrests...
 - Seat - Angle & rotation
 - Backrest - Height & angle
 - Armrests - Height, width & rotation. Fold down when not in use
- A specially designed base provides space for feet as well as microscope foot controls, allowing the surgeon to get that much closer to the patient
- A unique foot operated central brake is accessible from all sides of the chair, making it easy for the surgeon or assistant to lock / unlock the castors. The castors can also be locked using a hand brake positioned on the side of the chair
- Anti-static low rolling resistance castors allow the chair to be moved when cleaning & assist when being repositioned between rooms
- Vinyl fire retardant upholstery
- Recesses minimised throughout the chair, including on the underside
- Backrests feature edge bands to prevent dirt collecting in the joints
- Maximum capacity 160kg

Options

- Active Large Seat - Provides an increased seating surface in both width & depth, an advantage for large or tall users. Allows for improved weight distribution, & assists in maintaining posture
- Adjusting Lumbar Support Backrest - Provides optimal support for the lower back & pelvis, which supports the

natural curvature of the lower back & promotes a good posture.
