

# Kutlass<sup>®</sup> NF800

## Nitrile Foam Coated Glove

# Product Datasheet

**OUR REF:** Kutlass<sup>®</sup> NF800

### PRODUCT DESCRIPTION

These gloves are machine knitted from a mixture of DuPont™ Kevlar®, stainless steel and other blended synthetic yarns to produce a highly cut resistant glove. The Nitrile foam coating produces enhanced grip in dry, wet and oily situations. Elasticated wrist for a secure fit. Excellent dexterity and durability, accompanied with **Sanitized**<sup>®</sup> hygiene control to promote freshness and inhibit odours, creates a long lasting, highly cut resistant glove suitable for numerous hazardous applications.

### TYPICAL APPLICATIONS

Handling objects with sharp edges. Light sheet metal assembly etc.

**AVAILABLE SIZES:** 7/S • 8/M • 9/L • 10/XL

**PACKAGING: Per Pack:** 5 pairs

**Per Box:** 50 pairs

### Technical Details

**Tested in accordance with EN 388, EC type examination carried out by:** SATRA Technology Centre, Wyndham Way, Telford Way, Kettering, Northamptonshire, NN16 8SD, United Kingdom. (Notified Body 0321)

The results are taken from the palm area of the gloves and the uncoated surface may have reduced performance levels.

► **The Sanitized<sup>®</sup> hygiene function** brings increased freshness, comfort and protection.

- **Sanitized<sup>®</sup>:** These gloves incorporate a Biocidal product. The Biocidal treatment protects against a broad spectrum of Bacteria and Fungi. The active Biocidal substance - Zinc Pyrithione - promotes freshness and inhibits odours.
- **Storage:** Gloves should be stored in a cool, dry environment in the original packaging and out of direct sunlight.
- **Maintenance:** Both new and old gloves should be thoroughly inspected before use to ensure no damage is present. Gloves should not be left in a contaminated condition if reuse is intended - if contaminated, gloves should be cleaned as far as possible
