

# White Nitrile Powder Free Examination Gloves

## Product Information

|                      |            |
|----------------------|------------|
| Item Number:         | WHI/PF-NTL |
| Product Colour:      | White      |
| Size Range:          | S-XL       |
| Fingertip Thickness: | 0.09 mm    |
| Palm Thickness:      | 0.07 mm    |
| Typical Weight:      | 3.50 g     |
| Shelf Life:          | 5 Years    |

## Features

**Chemical Resistant:** Achieves type C chemical resistance according to EN ISO 374-1, protects against at least 1 chemical.

EN ISO 374-5 - Affirms with the requirements of EN ISO 374-5, for protection against virus, bacteria and fungi.

**Sensitivity** - Latex free, reduces the risks of allergic reactions and hypersensitivity to natural rubber proteins.

**Powder Content** - Powder free design reduces the potential for dust-related contamination.

**Material Composition** - Constructed from flexible materials and fit. Thereby reducing user fatigue during prolonged wear. Manufactured from Nitrile Butadiene Polymer.

**Silicone Content** - Residues from silicone-containing gloves can adversely affect painting, coating, and adhesive bonding processes, potentially causing defects. Silicone-free gloves reduce this risk and help maintain clean, contamination-free surfaces.

## Standards

AQL 1.5

EU Certified

Manufactured in compliance with European PPE Regulation (EU) 2016/425

Tested in compliance with Commission regulation (EU) No 10/2011 for Food contact.

Compliant with Medical Devices Regulation (EU) 2017/745 Class 1.

Tested to European Standards EN420 & EN ISO 374-1 & EN ISO 374-4.

## PLEASE NOTE

Weight does not constitute part of the product specification and is subject to change. Palm thickness measurements are indicative only and are based on agreed manufacturing tolerances. All thickness and weight values provided represent average measurements for medium (size 8) gloves. These values are correct to the best of Regal Polythene Ltd's knowledge at the time of input; however, due to inherent manufacturing processes, variations in thickness and weight may occur between batches.
