

Bleed Cabinet

Our Defib Store Bleed Control Cabinet is our newest model to our bleed control cabinet range.

Designed to ensure that a life-saving catastrophic bleed control pack is always available to help save a life in any accident or emergency.

The Bleed Control Cabinet can store up to six packs in cases of multiple injuries or patients.

All of our Defib Store Bleed Control Cabinets come with a 10 year warranty to ensure your bleed kits are kept secure and ready to use for the lifetime of the items inside.
