Features

- Featuring Unigloves NitreGuard Technology
- Featuring Unigloves NitreGrip Technology
- 13 gauge seamless polyester liner with HPPE and steel
- Cut resistant level F
- Sandy nitrile palm coating
- Reinforced nitrile extended thumb crotch

Benefits

- Unigloves NitreGuard Technology is awarded to gloves achieving a high-performance in the straight blade cut test
- Unigloves NitreGrip Technology is a new, advanced surface treatment that provides an assured grip when working in dry, wet or oily conditions. The technology reduces the force needed to grip, reducing hand fatigue
- Medium weight seamless polyester liner with HPPE and steel is breathable but still delivers maximum cut protection. At the same time providing good dexterity and flex to reduce hand fatigue
- Protects to the maximum EN ISO cut level F (≥30N), ideal for use in areas with a high level of cut hazards
- The abrasion level 4 sandy nitrile coating is resistant to oils and grease acting as a physical barrier. In addition, the sandy nitrile gives exceptional grip in dry, wet and oily environments
- Extra reinforcement along the index finger and thumb offers greater protection than standard thumb crotch reinforcement when handling abrasive material and increases the life of the glove
