EC Directive 89/686/EEC

EC Type-examination

Issue 1

PPE Product

Skytec® Houston seamless loop out machine knitted cotton/polyester terry gloves (18oz/yd²) with an integrated cuff and a nylon inner lining with a nonporous PVC palm coating, which are available in three nominal hand sizes.

It is certified that the manufacturer's technical file and the above mentioned PPE have been assessed and found to be in accordance with the requirements of Council Directive 89/686/EEC. When examined the PPE satisfied the requirements in the relevant harmonized standard:

EN 388:2003 (Protective gloves against mechanical risks) for a performance classification of 3,2,4,1 on the coated surface;

EN 407:2004 (Protective gloves against thermal risks) for class 0,2,0,X,X,X;

EN 511:2006 (Protective gloves against cold) for class 0,1,0;

In addition the external surface of the glove palm met the requirements of EN 1149-1:1995 for electrostatic dissipative protective clothing, but the back of the glove did not meet the requirements.

The manufacturer's information notice (Skytec Houston, user information), in English, has been inspected and found to have addressed all of the relevant requirements of the standard. However, the detailed content of the information notice is the responsibility of the manufacturer, as are translations into other languages.

This certificate is issued on the strict condition that appropriate checks on manufactured PPE, as detailed in Article 11 of the Directive are implemented and maintained while the model is in production.

Certification is based on technical file specification PSL TF PT-PB-216/18, issue 2 with supplement.
