

Oxygen Provider Level 2 (VTQ)

QUALIFICATION SPECIFICATION

QUALIFICATION NUMBER: PRO/21/OP

This Qualification is Endorsed by an Awarding Organisation Regulated by Ofqual

Endorsed, CPD Certified and ISO Standards

All ProTrainings classroom and online qualifications are endorsed through an Awarding Organisation Regulated by Ofqual, through the Skills for Care Scheme with the highest level of recognition and are approved through the CPD Standards services for CPD certification.

ProTrainings: Additional quality at an affordable price.

This is the highest standard of recognised endorsement and only organisations who have a proven history of continued success in making a difference in the training industry can be awarded the Centre of Excellence endorsement. ProTrainings proudly announce that we have received this endorsement for continuous professional training delivery.

As a recognised Skills for Care provider who is already endorsed for delivering training through digital e-learning, classroom and blended formats, this enhanced Centre of Excellence endorsement will take our credibility and quality of training to an advanced state of recognition. But what does this new Centre of Excellence endorsement mean?

The Centre of Excellence status means that we have been able to consistently demonstrate exemplary commitment to meeting the needs of learners in the adult social care sector. This meant we needed to comply with the social model of care and be able to measure the impact of provision on the lives of people who use these services.

We embarked on this provision to prove how consistent ProTrainings services are, to test whether we are meeting a high standard, to evolve, adapt and improve our provision and to place ourselves amongst a small selection of companies who are a Skills for Care Centre of Excellence.

Gaining this accolade has resulted in receiving a designation as a 'Centre of Excellence in Adult Social Care and Learning and Development' and we do not plan on stopping our standards here. We will continue to offer the finest services so that they are rewarded through the training and services we provide.

Introduction

Welcome to **ProTrainings Europe Limited**.

ProTrainings EU is a certifying organisation recognised for providing training and qualifications in England, UK and across the globe.

ProTrainings EU offer qualifications designed in-house and qualifications which are regulated by Ofqual through TQUK and FutureQuals. Our qualifications are carefully designed to meet industry standards and regulatory requirements giving every learner or user confidence that training meets HSE, Ofqual, UK & EU Resuscitation Council, Skills for Health, Ofsted and Skills for Care training standards.

Our unique approach to training delivery is designed to accommodate learning styles in all their forms, including online, classroom and blended formats. Our variety of delivery methods have been a preferred choice for many learners who require training through general interest and as part of their profession. Our training has been comprehensively designed to meet standards that fall within the boundaries of qualifications overseen by awarding organisations.

ProTrainings high standards include a robust training approach that meets strict specifications, quality assurance requirements and qualification standards. As a result of implementing a comprehensive quality assurance process, ProTrainings online and classroom courses have been CPD certified, endorsed through The Skills for Care Scheme (ProTrainings being the first organisation gaining approval for classroom and online training in the United Kingdom) and we have surpassed an external audit by being approved for ISO45001 : 2018 and ISO9001 : 2015 for maintaining high organisational standards.

Our qualifications are designed to support and encourage learners to develop their knowledge and skills. This development may result in progression into employment or career development in the workplace. Our qualifications also allow learners to progress onto further qualifications.

For more information please visit www.ProTrainings.uk for news, updates and information on a variety of qualifications spanning into the Health & Safety industry, First Aid world, Pet First Aid environment and Health & Social Care sector.

Qualifications Specifications

ProTrainings EU offer policies and guidelines for centres, organisations and individuals through this specification. Information in this specification will include the course curriculum, learning outcomes, units and general guidelines on how the course is delivered.

We aim to support our centres by providing guidance in this specification for a better understanding on how our courses are delivered and processed.

Our specifications document can be accessed on our website at www.ProTrainings.uk along with other specifications for respective qualifications listed under each sub-heading.

For more information please use our online chat service or contact our office on 01206 805 359. Alternatively, email our support department at support@protrainings.uk or compliance department at compliance@protrainings.uk.

Introduction to Oxygen Provider (VTQ)

Training in the medical administration of oxygen is essential, making the Oxygen Provider (VTQ) qualification a vital resource for familiarisation and training. Administering oxygen can effectively save lives, and this qualification teaches the basics of assembling, disassembling, and using an oxygen kit with safety in mind. It's especially useful for those working in the wind turbine and offshore wind turbine industries, providing necessary training in Oxygen equipment use.

The course covers the use of bag valve masks (BVM), pulse oximetry devices, and techniques for handling and using suction devices, ensuring adherence to the latest guidelines. Designed for anyone needing oxygen training for first aid purposes, the certification is valid for three years, with an annual refresher training recommended for optimal skill retention.

Our first aid courses are meticulously designed to meet the latest UK and European Resuscitation Council Guidelines. Furthermore, the content of this and all our courses has been independently verified for compliance with Continuous Professional Development (CPD) standards. Participants receive a Certified CPD Statement, a ProTrainings Certificate, and for online courses, an Evidence-Based Learning statement, which are all invaluable for professional development and skill enhancement in various medical and emergency response fields.

Qualification Delivery

Guided Learning Hours (GLH): These hours are made up of real-time contact time, guidance or supervision of a learner by an instructor, supervisor, tutor or trainer.

GLH for this qualification is 4-5

Total Qualification Time (TQT): This is an estimate of the total length of time it is expected that a learner will typically take to achieve and demonstrate the level of attainment necessary for the award of the qualification i.e. to achieve all learning outcomes.

TQT for this qualification is 8

Our Oxygen Provider (VTQ) course is taught over half a day and will include practical and theoretical assessments.

Entry Requirements

There are no specific entry requirements however, learners should have a minimum of Level 2 in literacy, numeracy or equivalent. This qualification is suitable for learners aged 16 years and above.

Progression

Successful learners can progress to other qualifications such as:

- Immediate Life Support ILS (VTQ)
- First Aid Responder Level 3 (VTQ)
- FAQ Level 3 Award for First Responders on Scene: Emergency First Responder (RQF)

Requirements to teach Oxygen Provider (VTQ)

Approval to deliver this course is sanctioned by ProTrainings Europe Limited only.

Instructors must hold the relevant qualifications, experience and occupational competence to qualify for approval. A detailed portfolio providing descriptive dates, CPD log and meeting/passing IQA reviews is required for approval. Supporting evidence which clearly outlines where instructors qualify to teach this course must be emailed to our compliance manager at compliance@protrainings.uk. Additionally, requirements to complete ITG instructor training is mandatory.

Certification

This qualification is overseen by our compliance department and all courses undergo a robust internal quality assurance review prior to certification.

A desktop-review and site visit will form part of our evaluation.

Paperwork should be marked and assessed by the approved instructor/centre and uploaded to our online management suite following successful completion of the course. Courses should be passed within 5 working days after the course has been taught.

Learner Access

ProTrainings offer highly sophisticated and supportive services to successful learners who complete online, classroom and blended training. Our online system offers the learner a uniquely designed portal where there is access to a free student manual, CPD credit statement, evidence-based learning document, optional weekly refresher videos and an area for downloadable content with a cohort of supporting evidence relevant to the qualification the learner completes.

ProTrainings after service adds clarity to teaching, promotes continuous learning and encourages learners to revisit and revise subjects they have been taught.

Complaints

Scope of Complaints Procedure: The procedure deals with complaints arising from:

- Delivery (or lack of delivery) of services for education and training including teaching, course content, tutoring, assessment, feedback on progress and learner support during learning programmes
- Incorrect or misleading information about services provided by the Centre
- Delivery (or lack of delivery) of support services provided by the Centre including administration of fees, enrolment processes, Centre accommodation, health and safety and learner resource services
- Unacceptable actions or behaviour by Centre staff and/or other learners in the Centre

How to complain - Complaints should initially be made in writing to the Head of Centre or to your designated tutor. This can be completed using your student login for www.ProTrainings.uk

Support can be made available for all those involved in a complaint including:

- Representation: parent, guardian, friend or supporter
- Help with completing the written complaint
- Induction will provide further details regarding this process

Oxygen Provider (VTQ)

PRO/21/OPC

Course Overview

- Basic Life Support
- Barriers and gloves
- How to use face shields
- Initial assessment
- Adult CPR
- CPR hand over
- Compression only CPR
- Child CPR
- Infant CPR
- Oxygen and Why we Need it
- Contra Indication of Oxygen
- Hazards of using oxygen
- When oxygen is used
- Hypoxia
- Pulse oximetry
- Oxygen Equipment
- Storage of oxygen
- Transport of cylinders
- Standard Oxygen cylinder
- PIN INDEX cylinder
- Oxygen regulators
- BOC Oxygen Kit Portable
- Suction Units

Learning Outcomes - PRO/21/OPC

These learning outcomes are mapped to meet an Oxygen Provider (VTQ) qualification. Each learning outcome presents a knowledge, skill or assessment to help students understand the curriculum in finer detail.

Learning Outcomes (LO) The learner will:	LO
UNIT – 1	
Explain the ABCDE approach to patient care	LO1
Describe the principles that underpin the respiratory system	1.1
Describe different types of cardiopulmonary arrest	1.2
Explain the ABCDE approach to patient care	1.3
Explain how to check a patients pulse, temperature, blood pressure and other observations.	1.4
Explain the difference between heart attack, angina and sudden cardiac arrest	1.5
Explain basic life support for adults	LO2
Demonstrate how to place a casualty in the recovery position	2.1
Identify the risks when placing a casualty in the recovery position	2.2
Describe handover and reporting procedures	2.3
Demonstrate cardiopulmonary resuscitation	2.4
Demonstrate compression only resuscitation	2.5
Explain when Oxygen is used, the hazards of using Oxygen and the contraindications of oxygen use	LO3
Explain why suction is used to maintain the airway and demonstrate how to use a suction device on a manikin	3.1
Explain what oxygen is and why it is necessary	3.2
Describe when oxygen is administered	3.3
Explain what Hypoxia is and how it can be controlled and monitored	LO4
Explain what Hypoxia is and how this is caused	4.1
Explain the importance of keeping the circulatory system functioning	4.2
Explain how to check oxygen saturation using a pulse oximeter	LO5
Understand the importance of using a pulse oximeter	5.1
Understand what pulse oximetry is and why it is important in assessing a patient	5.2
Explain how to store and transport Oxygen cylinders safely	LO6
Be able to accurately record and report	6.1

Understand how to safely store oxygen in the workplace or while driving	6.2
Understand how long an oxygen cylinder will last	LO7
Be able to recognise different sizes and designs of medical grade oxygen cylinders	7.1
Explain the different types of an oxygen mask and how they deliver oxygen to the patient	LO8
Identify the contents used in an oxygen kit	8.1
Understand types of masks	8.2
Explain the different types of an Oxygen mask and when you would use them	8.3
Understand the correct assembly, disassembly and storage of an Oxygen kit.	8.4
Explain how to use a bag valve mask (BVM) in basic life support	LO9
Demonstrate correct use of a bag valve mask	9.1
Demonstrate the use of resuscitation barrier devices	9.2
Understand special considerations when giving Oxygen to patients with Anaphylaxis and COPD	LO10
