BD® Venflon™ Pro Safety 22 G x 1.00 IN (25 mm)

Overview

Venflon™ Pro Safety Needle Protected IV Cannula is a ported, passive safety peripheral IV catheter (PIVC) designed to help minimise the risk of unanticipated blood spatter and needlestick injuries (NSIs).

Also available with BD® Instaflash™ Needle Technology to provide immediate visual confirmation of vessel entry, increasing opportunities for first attempt insertion success.
