HQUBE UV-C STERILIZING CUBE

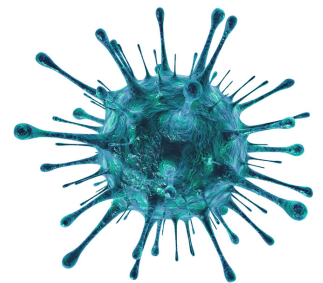

KILLS GERMS, BACTERIA AND VIRUSES SAFELY AND WITHOUT DAMAGE ON YOUR ELECTRONICS, CLOTHING AND CONSUMABLES.

USE ON PHONE, HAND BAG, WALLET, CHRISTMAS PRESENTS, PARCELS DELIVERED TO YOUR HOME , SCHOOL BOOKS AND MORE

SIMPLY PLACE ITEMS IN, POWER ON AND LEAVE FOR 3 MINUTES

EFFECTIVE

Kills 99.9% of bacteria, germs and viruses. The proven technology ensures that the bacteria's DNA is completely destroyed.

In other words - microorganisms are dead! It can even neutralize "superbugs" that have developed a resistance to antibiotics! UVC light is used for air and surface disinfection even in hospitals, care homes, laboratories.

CLINICALLY PROVEN RESULTS

Masks inhibit 21% of known pathogens. Sanitizing Gels inhibit on average 41% of germs and viruses. HQube kills 99.9% of all germs in just 3 minutes. No mess, no harmful chemicals! No build up on your ipads, tables, phones, baby toys or PPE masks etc.

PORTABLE

Foldable design fits easily to suitcase, carry on bag or baby trolley

FAST

Sterilizing in just 3 minutes

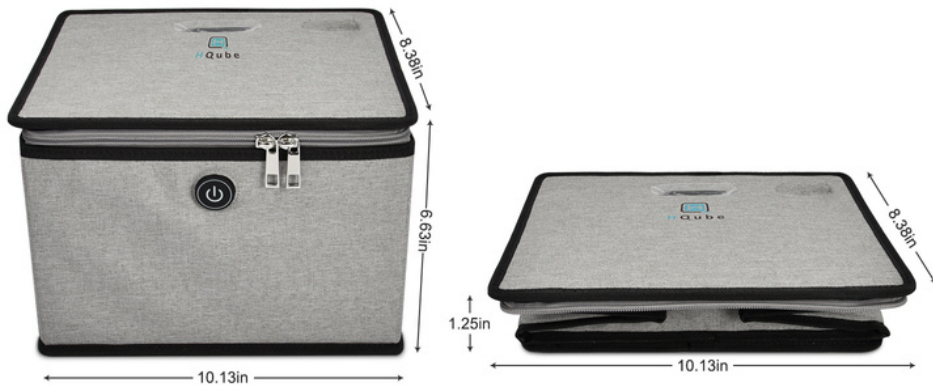

SAFE

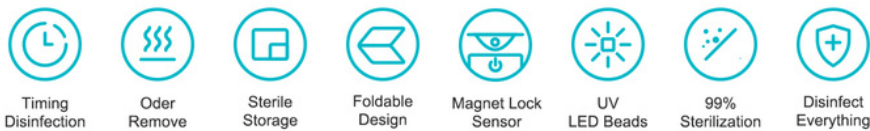

HQube won't operate until it forms a complete seal of all light inside the cube. If opened prematurely, the cube will switch off
