# Dimensions & Weights

	A	B	C	D
SMALL	541 mm	624 mm	450 mm	1110 mm
LARGE	755 mm	807 mm	540 mm	1380 mm

Weight: 200 litre unit: 12.5kg

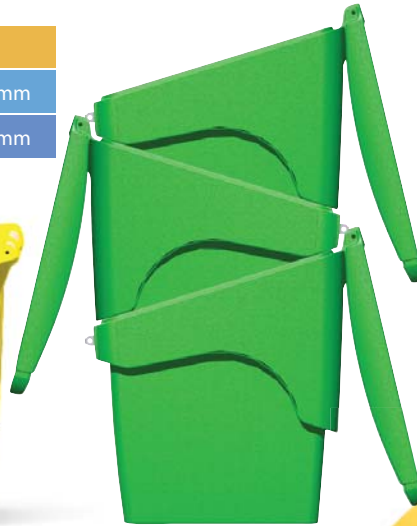

Weight: 400 litre unit: 20.5kg

200 Litre

400 Litre

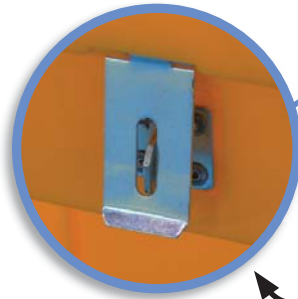

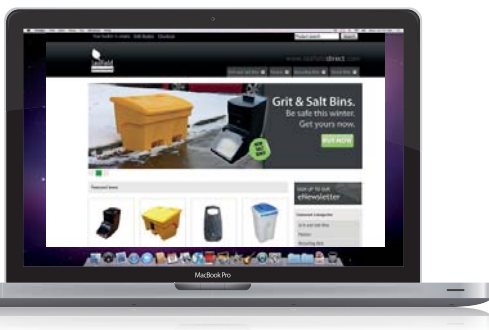

Stackable!

## Materials

- Double skin perimeter lid for improved rigidity
- Robust rib structure for added strength and wear resistance in base
- 180°, 60% nest for a stable stack during summer months
- Double skin lip and rim structure to improve load bearing properties
- Can be stacked up to 5 high

## Popular Uses

Leaffield Grit Salt bin is robust enough to be used in a variety of situations. The double skinned lid moulding stops deformation if weight is placed on the top of the grit bin.

## Materials

### Durability

Moulded Polyethelene (PE) is extremely durable with outstanding impact, fracture and shatter resistance properties. These mechanical properties are tested to BS 2782

### Weather Stability

PE is ideal for external applications. Materials used are UV stabilised to meet the demands of northern hemisphere weather conditions.

### Chemical resistance

The material is resistant to most acids, salts and solvents. Environmental elements such as acid, rain, soot, diesel fumes, salt and seawater will not corrode PE.

### Maintenance Free

The solid body colour is permanently moulded-in, eliminating the need for maintenance painting. Units are wear resistance, scratches and parking nudges are less evident.
