

Spec Sheet: Paper bubble wrap

Our eco-friendly paper bubble is the ideal, internal, protective packaging. For those currently using traditional bubble wrap and looking to make an environmental switch without compromising on protection levels, our paper bubble wrap is the perfect sustainable solution. It's an effective alternative which provides quality cushioning for your goods as well as strengthening your eco-friendly pack room operation. Our environmentally friendly paper is suitable for a variety of packing applications, including fragile, delicate and expensive items such as pottery, glass, frames and more. This innovative bubble wrap also fills interior spaces in packages and boxes, minimising the chance of internal damage and ensuring enough protection in transit and storage.

- Made from 100% recycled and biodegradable material
- Slight odour due to manufacturing processes
- Highly absorbent
- Available in a range of sizes
