

Your Vision Is Our Goal

SonoEye

SonoEye Ultrasound Device

Fast, flexible and easy to assist
diagnosis at the point of care.

ProSys
International Ltd

SonoEye handheld Ultrasound

☑️ Lightweight | 💧 Waterproof | 👉 Thumb-play | 🚰 Portable

This cost effective solution, with no additional costs, gives you access to advanced ultrasound techniques at the point of care.

The adaptable, portable, design works on any device; whether a tablet or mobile phone, making it possible for clinicians to support patient to patient measurements any time, any where, in point of care and longer term settings.

- Half the weight of a modern smartphone, SonoEye features a compact, highly integrated design that is easy to hold.
- SonoEye is waterproof and can be safely cleaned and sterilised to assist infection control.
- Cost effective solution with no additional costs.
- With simplified workflows SonoEye is easy to use on your smartphone or tablet; either IOS or Android. One touch can start and finish an ultrasound exam.
- SonoEye, integrated with the latest technology, can provide multiple solutions for fast:
 - Vascular Access
 - Sport
 - Anaesthesiology
 - Critical Care
 - Point of Care
 - Emergency medicine
