Welcome to the Summer 2022 NBB Outdoors Catalogue!

INTRODUCING sheltered areas outdoors to optimise your available space has many benefits for your school. Shelters provide **all-year weather protection**, can free up space away from building entrances and undesirable locations, and can **facilitate the uptake of cycle-to-school initiatives** by providing robust storage. A well-designed shelter can also improve the appearance of your grounds.

Our comprehensive range of shelters, cycle parking and street furniture is manufactured from top quality materials and comes with **market-leading guarantees!** You can purchase on a supply-only basis and **receive your shelter within only 2-6 weeks**, or take advantage of a full “turn-key” supply and installation service in and around school holidays for minimum distraction, and in adherence with all site rules.

Inside our latest catalogue you will find our most popular shelters and street furniture solutions. See the **best-selling Kimmeridge Cycle Shelter on pages 14-15**. Available from as little as £1,050 each, you can build your perfect shelter in 5 simple steps, to include powder coating, cycle racks, end panels and even swing gates!

Please do not hesitate to contact us to discuss your requirements. You can call us on **0800 1777 052** or email sales@nobutts.co.uk. We look forward to hearing from you.

Solution

Request A FREE Quotation

- 1. Take A Photo**

Simply take a photo of the area you would like to put a shelter. Try to provide a few shots from different angles – the more we know about the area, the more detailed we can be!
- 2. Send A Photo**

Send your photos, area measurements and requirements to sales@nobutts.co.uk. We'll take a look at this and get in touch if we need more information from you.
- 3. FREE Quotation**

We will raise a FREE no-obligation quotation usually within a couple of days after receiving your information. Inside your quotation pack you will find useful information such as case studies and links to free downloadable guides.

Get Your Perfect Custom Shelter In 5 Simple Steps:

At NBB Outdoors we can design ANY shelter to meet your exact specifications. From walkways to designated waiting or smoking shelters, and cycle storage to street furniture, we take care of the whole process with you, from a **FREE no-obligation quotation** all the way through to manufacture and installation.

All our custom shelters are **manufactured and treated to British (BS EN) and international (ISO) standards**, guaranteeing your custom shelter maintenance-free for **between 5 and 15 years**, with a **service life of 25 years!**

With hundreds of projects across the UK, our team of specialists have over **28 years' experience** to create the perfect shelter for your premises.

Call **0800 1777 052** or email sales@nobutts.co.uk today and get your **FREE custom quotation**.

Powder coated to BS EN 12206-1:2004

Galvanised to ISO 1461:2009

NBB 2021 Installation

“Quality workmanship and professional installation team”

Magna Academy, Poole

MAGNA ACADEMY, part of the Aspirations Trust, is a comprehensive secondary school situated in Poole, on the Dorset coast. They have served students aged 11-18 and their families since they first opened in September 2013 and take great pride in being a responsible and encouraging community.

We were approached by Magna Academy to provide a bespoke Winterbourne Freestanding Tiered Shelter, with guttering, to cover an open courtyard area and provide all-year-round shelter for students during break times.

The steel structure has been galvanised and powder coated in Signal White RAL9003 to complement the surrounding aesthetic

The finished project measures 20.5m x 13.6m and features a UV stabilised 16mm triple wall polycarbonate roof, to fill the area beneath with light. To finish, the steel structure has been galvanised and powder coated in Signal White RAL9003 to complement the surrounding aesthetic. This treatment guarantees the shelter to be maintenance-free for 15 years, with a service life of 25 years!

Tim Mead, Regional Facilities Manager for the Aspirations Trust said upon completion of the installation: *“A great canopy install provided for our Trust. Excellent service from start to finish. Quality workmanship and professional installation team. Look forward to using their services again in the future”.*

NBB 2021 Installation

“Professional, accommodating, and completed the job on time and to a high standard”

Burton CE Primary School, Christchurch

BURTON CE Primary School, Christchurch, put the happiness of their students and staff at the forefront of their thinking. Their community of enthusiastic children, parents, governors, and staff, value the importance of a caring environment that enables achievement for all.

We were contacted by Burton CE Primary School as they were in need of two shelters, following advice and guidance changes in view of the pandemic. The first would extend a classroom into a covered outdoor play area, to allow students to spend more time outside. The second would cover the entrance to the school reception area, for parents to stand under when waiting to collect their children at the end of the day.

After working closely with the school, it was decided that our

Winterbourne Freestanding Shelter would be the best option to suit both requirements. The finished projects measure 7.5m x 4.5m and 3m x 3m respectively, finished in a powder coated Green RAL6026 colour to match their school uniform and logo.

Finished in a powder coated green to match their school uniform and logo

Emma Bilson, Office Manager at Burton CE Primary School said: *“We would highly recommend NBB Outdoors, they were professional, accommodating and completed the job on time and to a high standard”.*

Winterbourne Wall Attached Shelter

NBB 2021 Installation

“The team were professional, friendly, completed the work on time and to a high standard”

Christchurch Infant School, Christchurch

WE WERE delighted to be contacted by Christchurch Infant School, for whom we had previously supplied and installed a shelter, to provide cover for the entrance to an annexed office for staff, and full protection from the elements for pupils at break times and when moving between classes.

Our dedicated installation team visited the school to discuss their requirements and expectations for the shelters, and it was

The structure will be guaranteed to last for a minimum of 25 years maintenance free, serving the school for many years

decided that a series Winterbourne Wall Attached Shelters and a single Winterbourne Freestanding Shelter would be the most suitable option to give the right amount of coverage for the school’s needs.

The finished project takes the form of a 32.14m x 2.5m wall attached shelter and 2m x 2.45m freestanding shelter. Guttering was also included to funnel rainwater into a single flow away from the shelter.

To complement the previous shelter installation and red-brick building exterior, Christchurch Infant School opted to have their new shelter galvanised and powder coated, in Green RAL6026.

This surface treatment means the structure will be guaranteed to last for a minimum of 25 years maintenance-free, serving the school for many years to come. The roof is made from clear triple wall 16mm polycarbonate, to allow light to penetrate the sheltered areas.

Dionne Johnson, Business Manager at Christchurch Infant School said: *“We recently contacted NBB Outdoors to assist with our outdoor provision for our EYFS pupils. Following a site visit to determine what we needed, plans were agreed, and the shelters were built during our school half term. The team were professional, friendly, completed the work on time and to a high standard. Both staff and the children love having the extra area outside that can still be used if it is raining.”*
