New year, new products, and new-look catalogue!

JUST LIKE that, it's 2022. Happy new year to all, and the hope of brighter times ahead. At NBB Outdoors we are now entering our 28th year of trading and it's fair to say we've never experienced a few years quite like those during the coronavirus pandemic. The pandemic has forced businesses and educational establishments to take steps (and leaps) to remain open – most notably the optimisation of outdoor areas owing to the reduced risk of transmission.

Our comprehensive range of shelters, furniture and accessories are manufactured from top quality materials and come with market-leading guarantees, to help you utilise your unused space and maximise the potential of your premises.

Inside our latest new-look catalogue you will find our most popular ranges available alongside a wealth of brand-new products. See the best-selling Standard Picnic Table on page 9, and pair with brand-new recycled plastic outdoor cushions for added comfort on page 35. You will also find our classic Sheffield Toast Racks on page 67. Available at market-leading prices they can be delivered to your location within two weeks of order!

Please do not hesitate to contact us to discuss your requirements. You can call us on 0800 1777 052 or email sales@nobutts.co.uk.

We look forward to hearing from you.

David Cole
NBB Trading Manager

Welcome to NBB Outdoors!

Proud member of Made in Britain

Made in Britain is a growing British manufacturing community, united with the use of the registered collective mark. This mark can only be used by members of Made in Britain, who have to meet strict criteria to guarantee the products on offer are manufactured to the highest standard here in Britain.

FREE No Obligation Quotation

If you require installation for any of our shelters, or if you require something a little different, simply email our sales team today.

They will discuss your requirements and answer any questions. You will be provided with a free, no obligation quotation within a couple of days of receiving your information.

Why choose NBB? For top-quality materials and products, look no further...

Quality & Price Promise

If you're not 100% satisfied with your purchase, return it to us in a saleable condition within 30 days for a full no quibble refund (T&C's apply)

Maintenance Free

Our product materials and treatments guarantee them to be completely maintenance free for between 5 and 25 years

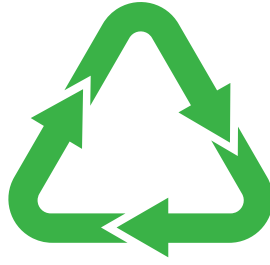

Market-Leading Guarantees

Following the manufacturers' guidelines, these products should give you 25 years of service

Why Choose Recycled?

The Features and Benefits

THE BENEFITS of recycled plastic significantly outweigh traditional timber. Considering both financial and environmental factors, recycled plastic is considerably superior to its timber or metal equivalents.

As we all know, the amount of plastic waste each year is staggering, and our eco-friendly recycled plastic furniture range can help save thousands of milk bottles from entering landfill.

We manufacture all our products from 100% Recycled High-Density Polyethylene (HDPE), typically used to manufacture everyday products such as water bottles, plastic bags, and bottle lids. When recycled, it is an extremely hardwearing, versatile material, making it a perfect choice for all-weather outdoor furniture. It has a significantly lower carbon footprint than timber or metal equivalents, using less energy and water and emitting lower levels of CO2 in its production.

STEP 1

High-Density Polyethylene (HDPE) plastic bottles destined for landfill are collected

STEP 2

The recycled plastic is broken down into granules at the reprocessor where it has been washed and cleaned

STEP 3

The broken down granules are transformed into our strong and robust recycled plastic furniture

25 YEAR GUARANTEE
Maintenance free

Our products are guaranteed for a minimum of 25 years against natural defect; in fact, they could last a lifetime!

100% Recycled Furniture

Made from 100% Recycled High-Density Polyethylene (HDPE). Typically used to manufacture everyday products such as water bottles, plastic bags and bottle lids

MADE FROM Milk bottles

When recycled, it is an extremely hardwearing, versatile material that makes an excellent replacement for wood

UV Stable

Furniture can be left outside all year round, without the risk of damage to the material

Easy to clean

Recycled plastic is non-porous, meaning water cannot penetrate the material; this is often the cause for splitting, warping, twisting and distortion seen in untreated timber

Free delivery

We offer Free Delivery to UK Mainland destinations, on all orders over £250*

5X Lasts Longer Than Timber

Resistant to all wood-boring insects, algae and bacteria that typically cause problems for timber furniture. We guarantee our recycled plastic will never rot, even in the harshest of weather conditions

In fact, we are extremely proud that sales of our products have recycled over 50 million bottles so far!

Equivalent to 583 Olympic swimming pools in volume!

Equivalent to 141.2 London Buses in weight!

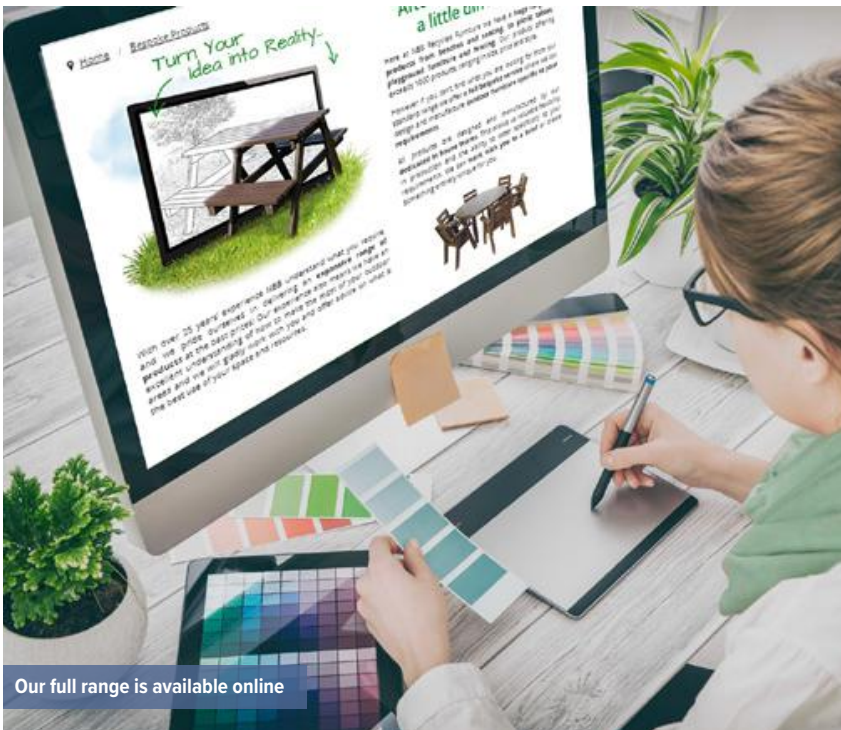

Can't find what you're looking for? After something a little different?

We have a huge range of products manufactured from 100% recycled plastic, from benches and seating to picnic tables, dining sets to playground furniture and litter bins to fencing. With over 1000 products, ranging in size, price and style, there really is something for every budget, setting and application at NBB Outdoors.

However, we also understand that sometimes you just need something done differently; unique colour combinations, adjustments to dimensions or something we may not have thought of before. If this sounds like you, and you can't find what you are looking for from our standard range, we offer a full bespoke service where we can design and manufacture outdoor furniture to your exact requirements.

All products are designed and manufactured by our dedicated in-house team. This allows us valuable flexibility in production and the ability to keep you updated throughout the whole process.

Call us on 0800 1777 052 or email sales@nobutts.co.uk to find out more.

What Do Our Customers Say?

Here's a few of our Trustpilot reviews...

Fraser

Ordered 2 garden seats which were delivered with no delivery charge. Excellent service even when I had to rearrange the delivery. Had other items from NBB and very satisfied with the quality and the service.

Carly

Our tennis club ordered two 3-Seater Benches. Good service, prompt delivery and wonderful products. Very strong and sturdy, easy to assemble and very attractive unlike some other recycled plastic that I have seen around.

Thornton Community Centre

Purchased two 3-seater benches for our village hall. They are perfect, look very stylish and were easy to fit together. Would highly recommend the product and the company.

Susan Shaw

Delivery was super-fast, bench easy to assemble and the style and quality excellent! I would recommend this company without a doubt!

Julie Brown

Exceptional quality, looks beautiful and heavy so secure. Easy to assemble. Very pleased.

Joanna Lander

Excellent product, five stars!

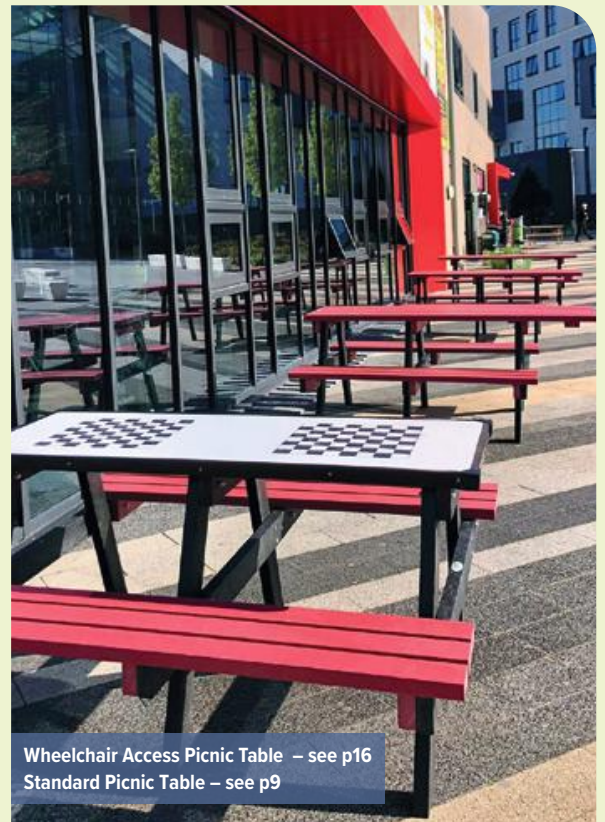

UWE Bristol

"We have recently invested in our outside space on campus and these picnic benches are fantastic. They are very durable, require low maintenance and are made of 100% recycled plastic that fits perfectly with our sustainability commitment. We purchased many variations that include games table, standard and accessibility friendly options to ensure we support our student community."

Donna Prince,

Buildings Manager – The Students' Union at UWE

Wheelchair Access Picnic Table – see p16
Standard Picnic Table – see p9

St. Mary's Old Boys RFC

Following the easing of lockdown restrictions and a return to play for grass roots sports teams, St. Mary's Old Boys RFC got in touch to kit out their clubhouse patio with brand new picnic tables for the coming season and beyond.

They opted for the Octagonal Picnic Table with green table tops in order to match their team colours and were extremely happy with the "excellent new patio furniture" they received.

Made from thousands of recycled milk bottles previously destined for landfill, the tables are guaranteed to last maintenance-free for 25 years, meaning they will continue to look great for many a game and club social to come.

Octagonal Picnic Table – see p11

Very Happy Customer

"Thank you very much for superb quality of furniture. It is so heavy (good!), instructions were very comprehensive, and it was accomplished in no time. Thank you for prompt delivery and well packed. I am more than pleased with the product and service."

Captain's Chair / Coffee Table – see p18
Captain's Treble Seat – see p19

Octagonal Picnic Table – see p11
Crew's Mess Set – see p23

Crondon Park Golf Club

To welcome their club members back to the course, Crondon Park Golf Club got in touch to upgrade their clubhouse outdoor patio area with brand new dining sets and picnic tables, for maximum

enjoyment of the 19th hole on sunnier days.

Remaining mindful of government advice, and members' own desires to remain socially distanced in view of the pandemic, the recycled plastic furniture

can be wiped clean between uses for simple infection control.

They opted for the best-selling Octagonal Picnic Table and Crew's Mess Set, both in grey to best complement the surroundings.

NBB Quality Bespoke Shelters

Helping to turn your idea into a reality...

Idea	Design	Solution

Request A Free Quotation

1. Take A Photo

Simply take a photo of the area you would like to put a shelter. Try to provide a few shots from different angles - the more we know about the area, the more detailed we can be!

2. Send A Photo

Send your photos, area measurements and requirements to sales@nobutts.co.uk. We'll take a look at this and get in touch if we need more information from you.

3. Free Quotation

We will raise a free no-obligation quotation usually within a couple of days after receiving your information. Inside your quotation pack you will find useful information such as case studies, and links to free downloadable guides.

Our Process

Powder coated to BS EN 12206-1:2004

Galvanised to ISO 1461:2009

We build to your exact needs

One of our bespoke shelter installations at St Stephen's Infant School, a Freestanding Winterbourne Walkway Shelter to offer an extended learning environment outside of the classroom.

The finished project takes the form of a 22m x 3.48m steel tube shelter with guttering, galvanised and powder coated to complement the school colours. This surface treatment means the structure will be guaranteed to last 25 years, serving the school for many years to come.

Can't find what you're looking for? Our bespoke shelter service will allow you to utilise your unused space and unleash your premises' 'hidden' potential!

Need a site survey or quote? Call us on 0800 1777 052

“Quality workmanship and professional installation team”

Magna Academy, Poole

MAGNA ACADEMY, part of the Aspirations Trust, is a comprehensive secondary school situated in Poole, on the Dorset coast. They have served students aged 11-18 and their families since they first opened in September 2013 and take great pride in being a responsible and encouraging community.

We were approached by Magna Academy to provide a bespoke Winterbourne Freestanding Tiered Shelter, with guttering, to cover an open courtyard area and provide all-year-round shelter for students during break times.

The steel structure has been galvanised and powder coated in Signal White RAL9003 to complement the surrounding aesthetic

The finished project measures 20.5m x 13.6m and features a UV stabilised 16mm triple wall polycarbonate roof, to fill the area beneath with light. To finish, the steel structure has been galvanised and powder coated in Signal White RAL9003 to complement the surrounding aesthetic. This treatment guarantees the shelter to be maintenance-free for 15 years, with a service life of 25 years!

Tim Mead, Regional Facilities Manager for the Aspirations Trust said upon completion of the installation: “A great canopy install provided for our Trust. Excellent service from start to finish. Quality workmanship and professional installation team. Look forward to using their services again in the future”.

NBB 2021 Installation

**“Professional, accommodating,
and completed the job on time
and to a high standard”**

Burton CE Primary School, Christchurch

BURTON CE Primary School, Christchurch, put the happiness of their students and staff at the forefront of their thinking. Their community of enthusiastic children, parents, governors, and a thoroughly professional and dedicated team of staff, value the importance of a caring environment that enables achievement for all.

We were recently contacted by Burton CE Primary School as they were in need of two shelters, following advice and guidance changes in view of the pandemic. The first would extend a classroom into a covered outdoor play area, due to limited space and the desire to allow students to spend more time outside. The second would cover the entrance to the school reception area, for parents to stand under when waiting to collect their children at the end of the day.

After working closely with the school, it was decided that our

Winterbourne Freestanding Shelter would be the best option to suit both requirements. The finished projects measure 7.5m x 4.5m and 3m x 3m respectively, finished in a powder coated Green RAL6026 colour to match their school uniform and logo. Emma Bilson, Office Manager at Burton CE Primary School

***Finished in a powder coated green to
match their school uniform and logo***

said: “We would highly recommend NBB Outdoors, they were professional, accommodating and completed the job on time and to a high standard”.

NBB 2021 Installation

Poole High School, Poole

POOLE HIGH School is located in the heart of the seaside town. A large school, they pride themselves on their successful pastoral system, reflecting the value they place upon each individual, producing a beneficial 'small school atmosphere'.

We were approached to help create a new sheltered recreation area for their students. Our dedicated installation team attended the school to discuss their requirements and expectations for the shelter. It was decided that a two-tiered Freestanding Winterbourne Walkway was the most suitable option to give the right amount of coverage for the school's needs.

The finished project takes the form of a 12.8m x 11.75m steel shelter, with a mixture of sub-surfaced and wall-attached posts.

Guttering was also included so rain doesn't cascade between the tiers and over the end of the shelter.

To complement the school colours and current aesthetic, Poole High School opted to have their new shelter galvanised

This surface treatment means the structure will be guaranteed to last 25 years

and powder coated, in Squirrel Grey RAL7000.

This surface treatment means the structure will be guaranteed to last 25 years, serving the school for many years to come.

“The team were professional, friendly, completed the work on time and to a high standard”

Christchurch Infant School, Christchurch

WE WERE delighted to be contacted by Christchurch Infant School, for whom we had previously supplied and installed a shelter, to provide cover for the entrance to an annexed office for staff, and full protection from the elements for pupils at break times and when moving between classes.

The structure will be guaranteed to last for a minimum of 25 years maintenance free, serving the school for many years

Our dedicated installation team visited the school to discuss their requirements and expectations for the shelters, and it was decided that a series Winterbourne Wall Attached Shelters and a single Winterbourne Freestanding Shelter would be the most suitable option to give the right amount of coverage for the school's needs.

The finished project takes the form of a 32.14m x 2.5m

wall attached shelter and 2m x 2.45m freestanding shelter. Guttering was also included to funnel rainwater into a single flow away from the shelter.

To complement the previous shelter installation and red-brick building exterior, Christchurch Infant School opted to have their new shelter galvanised and powder coated, in Green RAL6026.

This surface treatment means the structure will be guaranteed to last for a minimum of 25 years maintenance-free, serving the school for many years to come. The roof is made from clear triple wall 16mm polycarbonate, to allow light to penetrate the sheltered areas.

Dionne Johnson, Business Manager at Christchurch Infant School said: “We recently contacted NBB Outdoors to assist with our outdoor provision for our EYFS pupils. Following a site visit to determine what we needed, plans were agreed, and the shelters were built during our school half term. The team were professional, friendly, completed the work on time and to a high standard. Both staff and the children love having the extra area outside that can still be used if it is raining.”

Our shelters, walkways and canopies are easy to install and come supplied with full assembly instructions. Alternatively, we have a team of experienced installers who can carry out the work for you. Contact our friendly sales team for a price on 0800 1777 052, or to enquire about bespoke size options.

Best Seller!

Model Shown: Custom

Winterbourne Freestanding Shelter

Ideal for covering walkways and outdoor dining areas

Features & Benefits

- Robust functional design – great for providing covered walkways linking two buildings or creating outdoor dining/ waiting areas
- Curved or flat roofing designs can be accommodated
