Welcome to our latest catalogue

Autumn is nearly here and with the wet weather and fallen leaves, now is the time to think about replacing those entrance mats. Having adequate matting at your entrances will make floors safer, whilst also reducing cleaning and maintenance costs! Our best selling **Water Guzzler Mat** is great for heavy traffic areas and can be purchased from as little as £18, **see page 7!** Exterior mats are the first step in the process to removing moisture and debris off of footwear, **see page 21** for our popular **Oct-O-Mat!**

Within this edition you will find brand new products including entrance mats such as the **Essence Mat (page 13)** available in five colours this mat will stay bright even after prolonged use, and the **Diamond CTE Mat** which has an attractive and functional 'aqua dam' design (**page 16**)! Also featured inside you will find our popular safety mats **including cable protection, anti-fatigue** and **wet area matting**.

We have 100's of mats suitable for a multitude of purposes, and don't forget we offer free delivery to UK mainland for any order over £15!

Kind regards,

M. Bright

We hold free samples for most of our mats so you can see a small swatch before you buy giving you peace of mind and knowing exactly what you're buying.

4 Fast Delivery

We aim to deliver all mats within 5 days ensuring your mat is with you as quickly as possible. We also offer Saturday morning deliveries for an extra charge should you need your mat in a hurry.

5 30 Day No Quibble Guarantee

If for any reason you are not totally satisfied with your mat, contact us within 30 days and we'll either replace the mat or give you a full refund

The Benefits of Entrance Matting

There are a whole range of benefits for using entrance and logo matting inside and outside your premises. Research shows that up to 80% of dirt, dust and moisture is brought into your building by people's footwear. By providing appropriate entrance matting, you will ensure that your floors throughout your premises are kept clean and safe.

Below are some of the key benefits of using entrance mats through your building and at your entrances.

- 1. Prevents wear and tear on carpets and/or hard floors
- 2. Reduces slips and trips in wet weather
- 3. Dirt is stopped at the door, rather than spread across your floors
- 4. Significantly reduces the cost that would need to be spent on repairing carpets or hard floors
- 5. Logo mats create a lasting impression on your visitors

Take a look opposite for our 3 steps to choosing the right mat for your premises. This provides you with everything you need to know about the variety of mats we offer and where to place them.

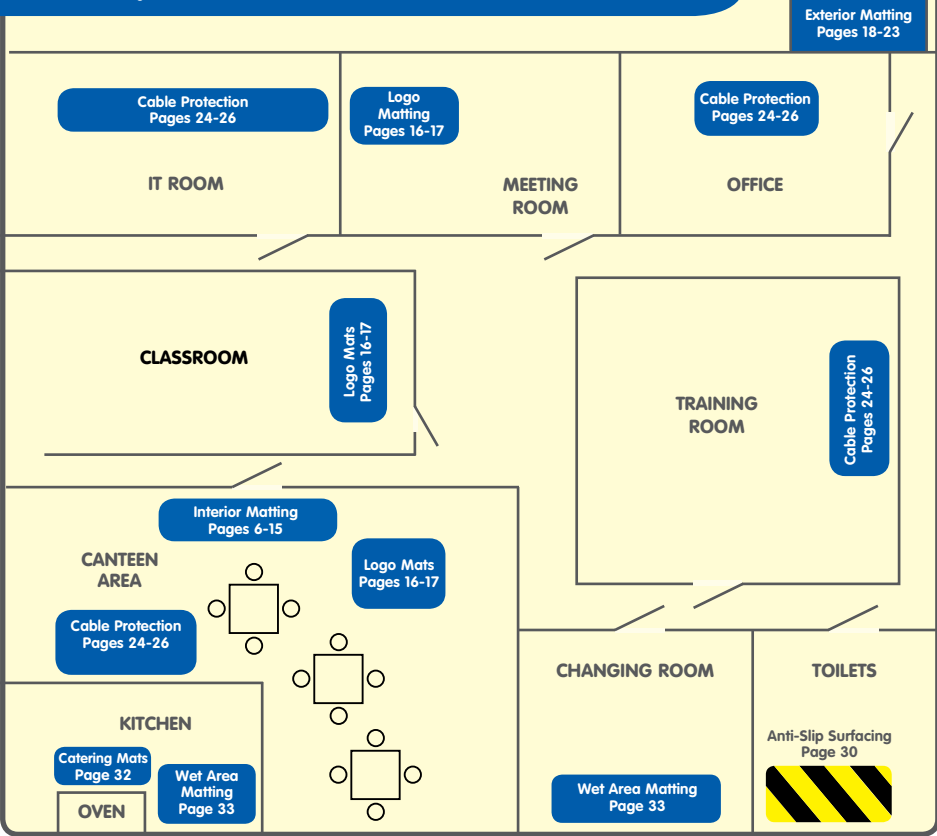

Our large range of high quality mats are perfect for all entrances and provide a fantastic solution to ensuring dirt is stopped at the door.

Handy NBB Mat Placement Guide

Mat Selection Guide

Selecting the correct mat is essential to ensuring that your premises are kept clean, safe and tidy at all times. Below, we explain how to choose the right mat, and the uses of each type of mat. Of course, any mat is better than no mat but there are essentially 3 elements to choosing the appropriate matting for your premises:

Primary Matting

Primary mats are the first mats your visitors and staff will stand on and they are generally placed outside your building. Their number one job is to scrape unwanted dirt from footwear to ensure it does not get transferred onto your floors. Ideally, each foot is required to scrape on this mat.

View our best selling Primary mats on the pages listed below:

- Oct-O-Mat Page 19
- Oct-O-Flex Bevelled Mat Page 21
- Rubber Bristle Mat Page 23

Exterior

Secondary Matting

The main job of Secondary matting is to continue the scraping process and combine with a drying action to remove any moisture and left over debris from shoes. This will help prevent any slipping and transferral of moisture and dirt onto carpets and/or hard floors.

View our best selling Secondary mats on the pages listed below:

- Water Guzzler Mat Page 7
- Brush Step Mat Page 9
- Dambuilder Mat Page 6

Foyer

Tertiary Matting

The last step to entrance matting is to complete the drying process. This ensures that the shoes are as dry and clean as possible and maximises removal of dirt or moisture to reduce transferral onto carpet and/or hard floors.

View our best selling Tertiary mats on the pages listed below:

- Essence Mat Page 13
- Platinum Entrance Mat Page 11
- Logo Mats Pages 16-17

Reception

For a solution that combines all 3 steps in one, view our Tri-Zone Entrance Mat on page 8. If you are limited on space why not choose a mat that combines Steps 2 and 3 in one? See page 10 for our Duo Entrance Mat.

Choose the right Entrance Mat for your premises

Fact

Did you know that 80% of dirt and water is tracked into buildings on the soles of people’s shoes?

Entrance mats are often the first thing a visitor will see upon entering your premises. It goes without saying that your entrance mats should leave the best possible impression of your company or school. It is also vital that you place mats in your entrance areas so they can catch as much dirt and moisture at the door to keep your floors clean and safe. Our wide range of entrance matting is durable, strong and perfect for any entranceway.

What do we offer?

Our wide range of Entrance Matting offers a solution for all entrances from school entrances to office and factory entrances. We offer mats with various water retention and cleaning properties to suit all types of entrances regardless of footfall.

Performance Charts

Throughout the Entrance and Exterior Matting pages, you will find a variety of performance charts (see below). This determines the water retention, soil resistance and crush resistance of each mat. Entrance mats are usually placed inside and outside an entrance so that the mat can catch dirt and moisture from shoes before it is transferred into the building.

Water Retention ★★★★★

Soil Resistance ★★★★★

Crush Resistance ★★★★★

Dambuilder Entrance Mats

Collects and contains liquids and moisture
2 qualities to choose from in a range of sizes and colours

Premier Dambuilder

- Unique raised border ensures moisture is retained
- Extremely durable and hardwearing

The bubble pattern facilitates scraping and drying and retains moisture within its unique border. A dense blend of polypropylene needle punched fibres ensures this mat is extremely durable and will withstand the heaviest of foot traffic. Contour moulded rubber backing features a cleat design to minimise slipping. The overall thickness is 1.3cm.

Available in; Charcoal, Blue, Brown and Red.

Standard Dambuilder

- Effective at removing dirt and moisture
- Rubber containment border traps moisture

The Standard Dambuilder is constructed from loop pile polypropylene with an embossed waffle design and rubber edge. The rubber backing has cleats to aid slip resistance.

Available in; Blue, Red, Brown and Charcoal.

Overall Thickness: 0.8cm

Cleated backing ensures minimal movement

Water Guzzler Mat

An effective barrier against dirt and moisture entering your premises

- Constructed to withstand heavy pedestrian traffic
- Effectively retains moisture and debris
- Hardwearing and durable non-slip rubber base
- Available in 4 colours; Brown, Blue, Charcoal and Red

This versatile mat can be used indoors or in a covered outdoor location. The raised waffle pattern facilitates the scraping process and the channel design traps moisture and debris. A moulded rubber backing grips the underlying surface and minimises movement.

The Water Guzzler Mat offers durable performance while maintaining its attractive appearance.

CMT25	75 x 150	£83.25

How it works

Zone 1

Effectively scrapes heavy-duty dirt and debris off shoes.

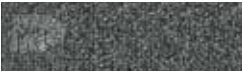

Zone 2

Combines scraping and drying.

Zone 3

Completes the drying process.

Tri-Zone Entrance Mat

Attractive design with exceptional performance

- Excellent scraping and absorption capabilities
- Three colour coordinated zones
- Available in Grey

The Tri-Zone is based on the principle “the longer the mat, the better the result”. The loop pile carpet is combined with polypropylene in three colour coordinated zones.

This mat will offer exceptional performance in high visibility areas that require a subtly attractive and functional mat. The Tri-Zone features a heavyweight vinyl backing which ensures minimum movement and makes it the perfect mat for any entranceway or reception area.

Brush Step Mat

Traditional ribbed design brushes off dirt and soaks up moisture

- Durable fibres ensure moisture and dirt retention
- Polypropylene fibres are needle punched into the base for added durability
- Heavy duty, slip and stain resistant vinyl base
- Available in Charcoal Grey, Red, Walnut Brown and Green
- Suitable for areas with medium footfall

The Brush Step Mat is an economical and durable entrance mat which will compliment any entrance area. The rib design entraps debris and moisture, which in turn reduces slip hazards and floor maintenance. The thick base ensures the mat lays flat and stays in place. Suitable for indoor use, this mat is extremely durable.

Choose the right Exterior Mat for your premises

Fact

Did you know that the footfall of 1500 people can remove 42% of the finish off a floor?

Exterior mats are the first mats people will stand on before entering your premises. By placing mats outside your main entrances, you can reduce the amount of dirt and moisture being brought into your building. You will also be prolonging the life of your floors and carpets and ensuring that your floors are kept safe from slip hazards.

What do we offer?

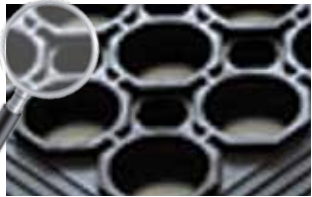

Our wide range of Exterior Matting provides solutions for outside any entrance. We have a variety of mats of all different textures with different qualities to suit all types of footfall entrances.

Cleaning & Maintenance

Our range of Exterior Mats are extremely easy to clean. Simply hose or jet wash them down and leave to dry before placing back down.

Raised circular pattern surface provides grip

Ramp Mat

Strong anti-slip rubber mat, perfect for any outdoor area

- Manufactured from durable SBR/NBR rubber
- Suitable for most weathers
- Superior slip resistance conforming to Slip Resistance Test EN 13552 Category R10
- Raised circular pattern surface provides grip while scraping dirt and moisture

This heavy duty rubber entrance mat is excellent for all outside entrances. Simply place this mat outside your building to keep out any mud, dirt or debris.

The bevelled edge ensures safety and is DDA compliant ensuring wheelchair access.

This slip resistant mat is easy to clean and to wash simply hose down outside.

Ideal Applications:

- Outside entrances
- Back doors
- Factories
- Kitchens

To order: please state code, colour and quantity.

Rigid Mesh Entrance Mat

Robust and sturdy entrance mat

- Durable PVC construction suitable for outside entrances
- Effectively scrapes dirt from shoes
- Bevelled edges make this mat suitable for wheeled access
- Available in Black or Brown

This solid entrance mat is constructed from durable interwoven PVC with a cross-ribbed surface to effectively scrape dirt from shoes. The open mesh design allows water and debris to fall through the holes. The bevelled edges reduce the risk of trips and aids wheeled access.

How it works

Oct-O-Mat

The perfect solution to keep out mud, snow and grime

- Heavy duty rubber construction
- Raised profile allows for excellent drainage
- Optional brushes available in 6 colours
- Connectors are available to link matting covering a larger area

The Oct-O-Mat is constructed from superior rubber to withstand extreme weather and the heaviest of foot traffic. The raised profile allows excellent drainage leaving a clean, slip free and dry surface. This is a heavy weight mat that will not move.

Connectors are available to link matting to cover a larger area, only one connector is needed every 25cm. Optional brushes can be inserted into the mat to provide additional grip and scraping qualities, as well as an opportunity to create your own unique message or logo.

To order: please state code and quantity. Size of the finished mat may vary up to +/- 3%

Vinyl loops scrape dirt and moisture off shoes.

Dirt Trap Scraper Mat

A modern alternative to a coir mat

- Vinyl loops scrape dirt and moisture off shoes and trapping it in the mat which prevents dirt from being tracked into the building.
- Small drainage holes diameter, compliant with EU standard for public entrances
- Manufactured from a durable flexible material that is ultra violet resistant, the Dirt Scraper mat performs well in different climates and adapts to any surface.
- The mats thick coils (strand diameter 1mm) are extruded from 100% PVC and its unbacked properties mean it does not absorb water. Supplied with pressed bevelled borders on all four sides allowing easy wheeled access.

Ideal applications: outdoor entrances, wet areas

Small drainage holes trap dirt.

Oct-O-Flex Bevelled Mat

Strong heavyweight rubber mat ideal for any outside area

- Constructed from recycled natural rubber, environmentally friendly
- Small drainage holes diameter, compliant with EU standard for public entrances
- Bevelled edges ensures the mat is wheelchair friendly
- Available in 3 standard sizes

The Oct-O-Flex is a heavy duty outdoor rubber entrance mat constructed from natural rubber and is designed to function at the immediate entrance, primarily as a scraper mat to stop dirt, grit and grime outside the doorway.

Bevelled edges make this mat wheelchair friendly and DDA compliant.

This mat is a strong product suitable for heavy foot traffic and is suitable for use in any weather. The open structure and raised knobbled underside helps to reduce movements permitting water to drain through, leaving a clean and dry surface.

Brush Scraper Mat

Superior heavy-duty brush scraping mat with ramped edges

- Vigorous brush scraper mat perfect for any entrance
- Contours to uneven surfaces
- Maximum moisture and dirt removal
- Available in Dark Grey with Grey brushes or Black with Grey brushes

The parallel lines of aggressive nylon brushes remove the heaviest of soiling to ensure the Brush Scraper is ideal in locations where mud or slush is commonplace. It scrapes, cleans and dries shoes allowing the dirt and moisture to fall through the grid and prevent it being transferred inside buildings. Supplied in 3 sizes these mats will contour to uneven or rough surfaces while remaining stable under foot. This high performance mat is effective indoors as well as outdoors.

Compliant with the UK Disability Discrimination Act, heels and walking sticks will not become trapped and the bevelled edges provide easy access for wheelchairs.

Ideal Applications: suitable for ramps, outside entrances and any outside areas

Rubber Bristle Mat

Durable rubber bristles trap dirt

- Excellent scraping properties
- Perfect for any outdoor entrance area
- Anti-slip base ensures the mat will not move
- Bevelled edges reduce trip hazard

Constructed from superior rubber, this mat has thousands of flexible rubber bristles providing automatic cleaning when pressure is applied. The Rubber Bristle Mat will withstand the extremes of weather and heavy footfall. Suction cups on the base ensure the mat is slip resistant and safety bevelled edges minimises the risk of trips.

To clean, simply shake mat or hose down.

Cable Mat

Prevent accidents caused by loose cables

- Specially designed recess ensures cables are held securely beneath the mat
- High visibility chevrons highlight the potential hazards
- Can hold many loose cables

Avoid unnecessary trips caused by loose leads and cables within your premises. The nitrile rubber backing prevents the mat from moving and the high visibility chevrons serve as a warning. The cables fit into a specially designed recess under the mat ensuring they're kept neat and tidy and do not cause a safety hazard.

The top of the Cable Mat is carpet and is black/steel in colour and comes in one rectangular size. This mat is very simple to clean. Simply hose down outside or machine wash at 40°C.

Machine Washable

Polycarbonate Floor Protection Mats

Protect your carpet and hard floor from damage

- Extremely durable
- Available for carpets or hard floors

Polycarbonate mats offer a more durable and safer alternative to PVC mats. The smooth surface allows chairs to glide effortlessly, reducing back and leg strain and protecting your floor from wear, tears, spills and scuffs.

The contoured shape is designed for chairs and the rectangular shape is ideal for places where staff congregate such as photocopy areas, vending machines, receptions, etc.

Mats for Carpeted Floors:
designed with carpet friendly grippers to ensure the mat stays in place.

Mats for Hard Floors:

Anti-Static Mats

Provides protection from static electricity for staff and machines

- Available for carpets or hard floors
- Avoid damage to expensive electronic equipment
- Prevent dust collecting from electrical charges

Constructed from PVC, this mat will help to reduce static electricity build up in your workplace and protect electronic equipment and staff. Constant movement creates electrical charges that can damage expensive equipment such as computer terminals. These charges attract a high quantity of dust that can further increase damage to your machines.

To order: please state code and quantity.

Easy Step Anti-Fatigue Mat

Increase comfort and productivity

- Ribbed surface enhances foot traction
- Insulates feet from cold floors
- Bevelled edges to minimise risk of tripping
- Available in Black or Grey

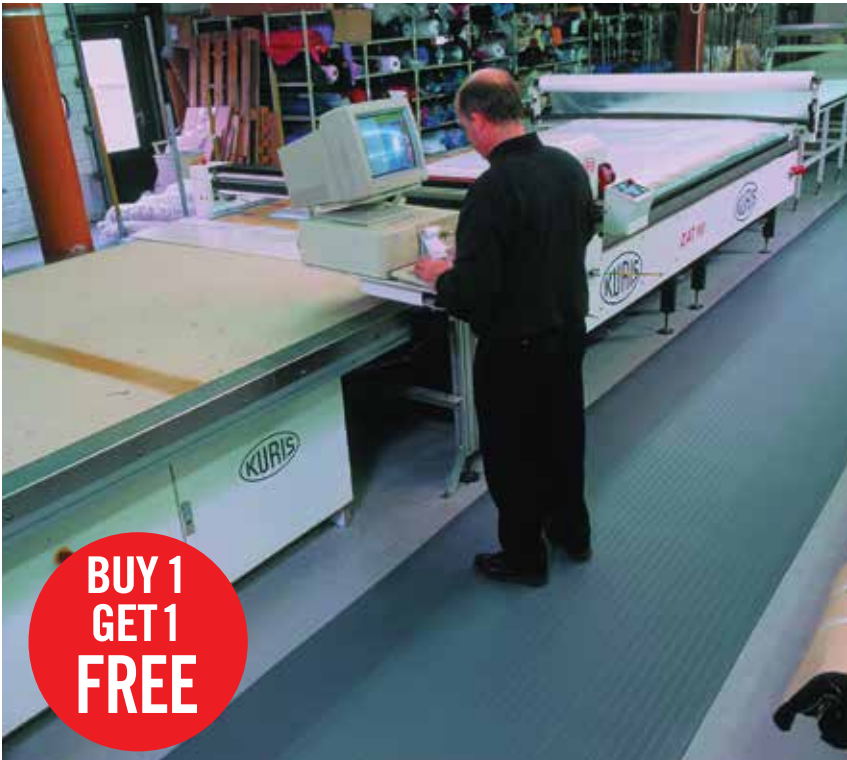

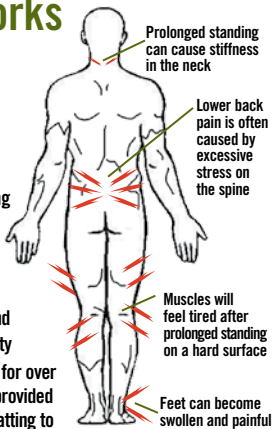

The Easy Step Mat is constructed from micro cellular vinyl consisting of millions of air bubbles to reduce pressure pain caused by prolonged standing. A ribbed surface enhances foot traction over the mat as well as insulating feet from cold floors. The sides are bevelled and sealed to minimise the risk of tripping. This economic and versatile mat is suitable for dry areas.

Ideal Applications: All light duty dry areas from warehouses to shops.

Our **Buy 1 get 1 FREE** offer on the 60 x 91cm and 91 x 150cm mats offers an economical solution to minimise fatigue.

How it works

- Research shows that standing on a hard floor can lead to an immobile standing pattern
- Prolonged standing can cause poor circulation and stiffness
- Anti-fatigue mats provide comfort and increase productivity
- Workers who stand for over 3 hours should be provided with Anti-fatigue matting to reduce the risk of the above symptoms

To order: please state code, colour and quantity.

Hi-Viz Anti-Fatigue Mat

Yellow border increases safety awareness

- Black pebble surface offers slip resistance
- Reduces risks associated with prolonged standing
- Fire tested to DIN54332(B2) part of DIN4102 and conforms to slip resistant test EN13552 (Category R10)
- Manufactured from closed cell vinyl foam

The bright yellow borders of the Hi-Viz Anti-Fatigue mat increases safety awareness. As well as providing a comfortable standing surface, it reduces fatigue from prolonged standing by easing pressure to the feet and legs. The pebble surface offers slip resistance in dry areas.

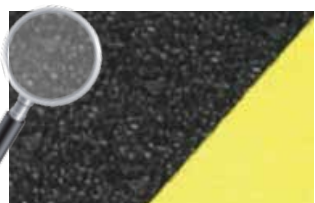

Bright yellow border increases safety awareness

To order: please state code and quantity.

Code	Size (cm)	Depth (cm)	Price Each
HVA01	60 x 90	0.9	£27.60
HVA02	90 x 150	0.9	£52.65

Take a closer look

Pebble surface is slip resistant & yellow border increases visibility.

Flex Step Anti-Fatigue Mat

Popular Anti-Fatigue Mat which has been developed for personnel standing for long periods of time

- The Flex Step design is specifically to help prevent and reduce fatigue or discomfort in the workplace
- Air domes provide comfort for legs, feet and back
- Bevelled edging increases workplace safety helping to reduce slips, trips and falls
- 100% rubber construction for enhanced durability
- Ideal for any workplace area including service counters, hotel receptions, check out areas and industrial applications

NEW!

Used for long periods of standing

Take a closer look

Air domes provide comfort for legs, feet and back.

Free Flow Comfort Mat

Versatile anti fatigue mat which is great for areas which need drainage such as kitchens

- Oval slots in rib valleys allow for quick fluid drainage
- Gradual bevelled edge prevents slips, trips and falls
- 13mm thickness aids in increasing productivity and provides a welcome relief for aching feet, legs and back
- Manufactured from 100% premium rubber for long lasting durability
- The Free Flow Comfort design is naturally oil, water and grease resistant - helping to keep areas such as kitchens, workshops, restrooms and gyms clean and slip-free

NEW!

Did you know?

Slips & trips are the most common causes of non-fatal injuries and account for over half of all reported injuries.

Oil, Water & Grease Resistant

Anti-Slip Stair Tread Nosings

Reduce trips and slips on stairs

- Virtually indestructible
- Resistant to stretching, warping and swelling
- Supplied in yellow as standard

A pre-formed fibreglass profile constructed by combining polyester resins with fibre reinforcements ensures this product is durable and its textured finish offers excellent slip resistance. The patented feather back edge further prevents trip hazards. Nosings are easy to install with fixing adhesive (see below) and can be walked on immediately, keeping disruption to a minimum.

Available in 2 types of grit surfaces: Internal with a smaller grit size suitable for internal stairs and external with a heavier grit profile ideal for outdoor use.

Two sizes are available: 55mm x 55mm suitable for new builds to meet 2004 Building Regulations. The 70mm x 30mm profile is normally used for existing buildings.

We can cut to size any length up to 3 metres. This service is **free of charge** e.g. if you require a length of 1050mm (55 x 55mm) for internal use please quote code SGRP7.

Anti-Slip Tape

Prevents slips and trips on stairways, walkways and paving

- Highly effective at highlighting potential hazards
- Durable plastic carrier with aluminium oxide surface ensures years of use
- Available in 18.3m metre lengths
- Available in hazard Black and Yellow chevrons or Black

These Anti-Slip Tapes are suitable for indoor and outdoor use and conform well to any uneven surface. Each tape is available in 5 widths with all rolls measuring 18.3m long. Our Black Tape is flexible and can be bent around angles over 90° without damaging tape. Apply primer to porous floors prior to application to ensure proper adhesion and by using our edge sealer, this will prevent premature lifting and improve longevity.

Fine Rib and Broad Rib Rubber Matting

Versatile corrugated mats with many applications

- Flexible rubber runner suitable for cold flooring
- Excellent wear and tear resistance
- Resistant to diluted acids and alkalis
- 10 metre rolls are perfect for warehouses and can be cut to any size

These flexible runners create a barrier to cold flooring, aid slip resistance, create a silencing effect over tiled floors and provide protection to objects when dropped.

Supplied in 10 metre length rolls, the runners can be cut to size and used virtually anywhere. We have customers who have used them instead of carpets in coaches, as shelf liners, on production surfaces as well as on their floors.

Constructed from durable SBR rubber compounds which are designed to be wear and tear resistant. Both versions are easy to sweep clean. This matting is available with fine and broad-rib patterns.

Fine-Rib Matting - Best suited to foot-only traffic.

Broad-Rib Matting - Ideal for areas where wheeled traffic is used.

Rolls can easily be cut down to suit your application

10m of Matting for As Little As £144.05

Take a closer look

Runners can be cut to size and used virtually anywhere.

Fine Fluted Rubber Matting

Durable and slip resistant

- Manufactured from hardwearing natural rubber
- Custom lengths available
- Suitable for a wide range of applications
- Available in Black only

This fine fluted mat will provide insulation from cold concrete floors. Suitable for a huge range of applications including walkways, workbenches, van loading areas, ramps and general purpose areas. The rubber flutes act as a scraper to trap water and debris. This mat will also reduce noise levels in certain environments.

Ideal Applications:

- Industrial and commercial
- General work & assembly areas
- Inspection areas

Provides insulation from cold concrete floors

To order: please state code and quantity.

Multimat Kitchen Mat

Reversible Anti-Slip Mat suitable for food preparation areas

- Lightweight mat made of tough rubber
- Protects floors from oil and grease
- Black mat is made from natural rubber and red mat is manufactured from 75% nitrile rubber
- Available in 2 colours; Black and Red

The **NEW** Multimat is a greaseproof and oil resistant mat made from durable rubber. The non-skin surfaces add traction and will keep the mat from shifting. These mats are perfect for use in kitchens, bars and locations where floors are at risk of grease and oil spillage. Simply clean with detergent and using a water-jet is recommended to extend the life of the mat. This mat has an ergonomic benefit derived from 0.95cm thick worker platform. The black mat is suitable for general purpose or choose the red mat for Oil Resistance.

Black - General Purpose

To order: please state code and quantity.

TRM06	91 x 975	0.95	£721.00

Sanitop Catering Mat

Ideal for wet and dry areas

- Drainage holes allow fluids and debris to fall through the mat
- Resists chemicals and grease

The Sanitop is a greaseproof anti-fatigue mat. The Drainage holes and raised studs on the underside provide aeration and allow fluid and debris to fall through, keeping the surface clear and safe. Constructed from a resilient rubber compound, the mat is designed to withstand harsh chemicals and offers a simple solution to improving safety in industrial and food preparation areas. Broad bevelled borders enhance the safety benefits of this mat. The Sanitop mat is 1.3cm thick.

Available in Terracotta only.

To order: please state code and quantity.

Code	Size (cm)	Depth (cm)	Price Each
SAN35	91 x 152	1.3	£98.95
SAN310	91 x 297*	1.3	£197.95
SAN320	91 x 594*	1.3	£395.95

*Consists of multiple mats bonded together. One inch of ramp is cut off to bond mats. Therefore overall length is slightly less.

Drainage holes dissipate spills

Kitchen Mat

Hygienic anti-slip mat

- Reduce the risk of slipping on wet or greasy floors
- Anti-microbial properties inhibit the growth of bacteria
- Manufactured from durable nitrile rubber
- Available in Black

The Kitchen mat is a hygienic anti-microbial mat manufactured from nitrile rubber. A raised textured surface reduces the risk of slipping and the edges are bevelled to avoid unnecessary trips. With excellent resistance to grease and detergents, this mat is ideal for food preparation areas, bars and dishwasher locations. The open holes on the surface allow liquids to drain through.

To order: please state code and quantity.

Code	Size (cm)	Depth (cm)	Price Each
KM01	85 x 140	0.9	£106.65

Ideal Applications:

- Kitchen floors
- Hotels
- Warehouses
- Leisure centres
- Factories

Wet Step Matting

For barefoot comfort and grip

- Manufactured from anti-bacterial treated polythene
- Anti-slip surface prevents slips and trips
- Easy to install
- Available in Blue, Beige and White Dotted

Perfect for all wet environments such as swimming pools and shower areas. Wet Step is manufactured from anti-bacterial treated polythene which helps prevent the growth of fungi and bacteria and promotes hygiene.

The design allows the water to drain through and the anti slip surface is soft and warm underfoot. Wet step is easy to install and relocate. Optional clips are available in all colours to connect mats side by side. A minimum of 5 clips are required per linear metre.

To order: please state code, colour and quantity (or length to the nearest linear metre).

Wet Area Tiles

Ideal solution for cold, hard, slippery floors

- Interlocking tiles for easy installation
- Suitable for industrial as well as leisure environments
- Provides anti-fatigue as well as anti-slip protection
- Choose from a choice of 6 colours; Jet Black, Spring Green, Topaz Yellow, Sapphire Blue, Neutral Beige and Ruby Red

The leisure slip tile provides a comfortable solution to cold, hard slippery floors. A simple interlocking design makes installation and removal quick and easy even in irregular shaped areas. Providing anti-fatigue as well as anti-slip protection makes these tiles suitable for industrial or commercial application. As well as free draining, the tiles are resistant to oil, grease and chemicals.

To order: please state code, colour, size and quantity.

Interflex Splash Matting

Provide safety, hygiene and comfort for wet areas

- Flexible PVC mat ideal for changing rooms
- Available in custom lengths
- Can be used both inside and outside
- Available in Red, Green and Blue

Constructed from strong flexible PVC and provides ideal slip resistance for changing rooms and swimming pools. It is resistant to bacterial and fungal growth and the unique design provides effective drainage. It offers barefoot comfort both inside and out.

Custom lengths available in widths of 60cm, 80cm & 100cm.

4 Supply us with your wording and layout of the mat

Either by email to sales@nbbmatting.co.uk or fax to 0800 1777 053.

Example

Your Logo  Welcome to our company  Your text to go here

5 Supply us with the artwork
Either by email (quickest method) to: sales@nbbmatting.co.uk

We welcome any professionally designed artwork in EPS, TIFF or high resolution JPG format. This may be in either PC or Mac format.

If you have access to a scanner, please send us your straight aligned (upright) scan in a JPG file with a resolution of at least 150 dpi (but preferably 300 dpi, no higher).

We will return the colour design proof to you by email if you supply your address. Otherwise we will post a print to you.

PLEASE remember to send the two completed order forms as well!

Or By Post Address to: Freepost NBB LTD
Please send a flat, un-creased business card, letterhead or brochure, without staples in or any drawing on it (so that we can scan it).

Please send us the two completed order forms with the artwork. (we do not normally return the supplied artwork piece).

6 Colour Proof
We will contact you shortly with a colour proof of the mat. We will not proceed with manufacture until we have written confirmation (by fax, email or post) from you that you are happy with the design and layout (artwork changes are charged at £10 per revision). Then we will deliver your custom logo mats as soon as we possibly can.

Please note: If the order is cancelled after the customer receives artwork proof, the £35 artwork fee will still be charged.

9 Green	10 Blue	11 Burgundy	12 Brown	13 Dark Grey	14 Dark Green	15 Dark Blue	16 Black
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

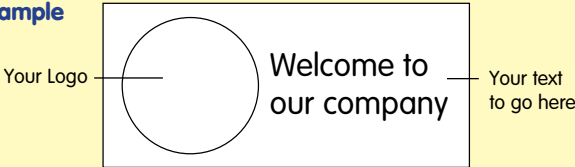

* Actual colours may vary slightly from those reproduced in this catalogue

4 Supply us with your wording and layout of the mat

Either by email to sales@nbbmatting.co.uk or fax to 0800 1777 053.

Example

5 Supply us with the artwork

Either by email (quickest method) to: sales@nbbmatting.co.uk

We welcome any professionally designed artwork in EPS, TIFF or high resolution JPG format. This may be in either PC or Mac format.

If you have access to a scanner, please send us your straight aligned (upright) scan in a JPG file with a resolution of at least 150 dpi (but preferably 300 dpi, no higher).

We will return the colour design proof to you by email if you supply your address. Otherwise we will post a print to you.

PLEASE remember to send the two completed order forms as well!

Or By Post Address to: Freepost NBB LTD

Please send a flat, un-creased business card, letterhead or brochure, without staples in or any drawing on it (so that we can scan it).

Please send us the two completed order forms with the artwork. (we do not normally return the supplied artwork piece).

6 Colour Proof

We will contact you shortly with a colour proof of the mat. We will not proceed with manufacture until we have written confirmation (by fax, email or post) from you that you are happy with the design and layout (artwork changes are charged at £10 per revision). Then we will deliver your custom logo mats as soon as we possibly can.

Please note: If the order is cancelled after the customer receives artwork proof, the £35 artwork fee will still be charged.
