OVER 100 MILLION
PLASTIC BOTTLES SAVED FROM LANDFILL

Maintenance-Free Outdoor Furniture Made From 100% Recycled Plastic

As the leaves turn brown and fall to the ground, and as the temperature cools amidst more frequent rainy spells, you should look to install maintenance-free outdoor furniture on your premises. Why? The eco-friendly recycled plastic material can last outside all year round without requiring any treatments whatsoever. It's a long-term investment that will save you enormous amounts of time and money on costly annual maintenance and upkeep.

On a separate note, I'm delighted to announce that sales of our products have now recycled over 100 million plastic bottles from further cluttering landfill or entering our oceans! Recycled plastic uses less energy and water in its production and emits lower levels of CO₂, too, and we're as committed as ever to continue championing the environment in everything we do. It's milestones such as these that we love to be able to share with you, and when you purchase your next furniture item you can see exactly how many hundreds, or thousands of plastic bottles you will be helping to recycle – just look out for the 'Milk Bottle' icon throughout the catalogue.

So take this opportunity to upgrade your premises' outdoor furniture and promote your sustainability credentials to your staff and customers, with maintenance-free and eco-friendly solutions to create safe and comfortable recreation areas for all to enjoy.

And as you'll have come to expect from us, the latest catalogue is packed full of best-sellers and brand-new products. See the best-selling Standard Picnic Table on page 5, available with fantastic savings of up to 25% off when purchasing multiple tables, you'll be recycling 2,100 plastic bottles with every table purchased!

Please do not hesitate to contact us to discuss your requirements. Call free on **0800 1777 052** or email sales@recycledfurniture.co.uk to chat with our friendly team.

We look forward to hearing from you.

Did you know?

Our eco-friendly recycled plastic furniture range can help save 1,000's of milk bottles from entering landfill. In fact, 1kg of material is derived from 28 2-litre HDPE milk bottles. Look for this symbol to see how many milk bottles are saved for each piece of furniture. We've saved over 100 million bottles so far!
